Subject: Microsoft Settlement

To whom it may concern:

I am a computer trainer and have been for many years. I'd just like to say that the introduction of Windows has made my life much easier as the Windows product has standardized all software.

Microsoft has provided an invaluable service to the population and software students everywhere by providing a standard upon which all software is based. In my perspective, this is an invaluable service rather than a 'monopoly' situation. I think the Microsoft suit should be settled and taxpayers' money should go elsewhere to truly fight injustice.

Sincerely,
Mona Mehta Steffen
